PRACTICAL EXTRAS

As one of the leading suppliers of powered access in the UK, AFI-Uplift is able to provide a comprehensive range of access solutions, which can be geared to meet your individual business needs.

Our aim is to provide the most appropriate access solutions for the application in hand, so that you can meet your deadlines and your budget without compromise on quality or safety. To that end, AFI offers a range of safety equipment and practical accessories, available through your local depot, to make working at any height, safer, more efficient and cost effective. Here are some of our more popular solutions:

For further information about AFI-Uplift services and accessories, please contact your local depot on

PAINT PROTECTION

Asking us to protect your machine with a protective wax prior to delivery can protect you from costly overspray charges. One coat lasts for up to two weeks.

NAPPIES

Should your machine develop an oil leak, using machine nappies helps to protect your working area from oil deposits.

WHEEL COVERS

When non-marking tyres are not readily available, wheel covers are ideal for indoor applications to prevent floors from being marked.

HARNESSES

As part of our commitment to safe working practice and in line with recommendations from IPAF and the CPA, in agreement with the HSE, AFI recommend that a full body harness with an adjustable restraint lanyard is used and correctly attached when working from a boom type platform.

BENEFITS

Standard Kit

- Ideal for the regular user
- Fully adjustable
- Two point harness
- Easy fit connectors
- Rip stitch indicators
- Complete with adjustable restraint lanyard

AFI offer a range of harness kits, complete with lanyard, to suit your needs, all readily available through your local AFI Depot.

Budget Kit

- Ideal for the occasional user
- Single point harness
- Rear attachment point
- Adjustable leg straps
- Complete with adjustable restraint lanyard

Harnesses are lightweight and accredited to EN 361, whilst the accompanying adjustable, restraint lanyard is accredited to EN 354.

Comfort Kit

- Ideal if you are wearing a harness all day
- All the benefits of the versatile standard kit
- Comfort pads

Restraint Lanyard

- Made from 40kN webbing for greater strength
- Steel adjuster
- Length can be adjusted to suit the task in hand

For more information about harnesses and lanyards please contact your local depot on

LARGE PIPE STAND

The AFI Pipe Stand has been designed to aid the safe and controlled lifting of materials during the installation of overhead pipe work.

BENEFITS

- Suitable for use with a range of Skyjack diesel scissor lifts, with working heights from 31 - 50ft
- Adjustable for height and width to suit application
- Reduces the need for manual handling
- Aids potential productivity

CE APPROVED WORK PLATFORMS

| Skyjack Model | Safe Working Load (kg) | Pipe Stand Weight (kg) | Revised Model SWL (kg) |
|---------------|------------------------|------------------------|------------------------|
| SJ9250 | 680 | 74 | 606 |
| SJ8841 | 680 | 74 | 606 |
| SJ8831 | 680 | 74 | 606 |

For further information about the AFI Large Pipe Stand, please contact your local depot on

08707 511 005

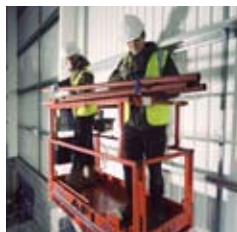

SMALL PIPE CARRIER

Our small pipe carrier has also been designed as an aid during installation of overhead pipe work. Light and easy to fit, it is ideal for smaller installations.

BENEFITS

- Suitable for use with 1,500 Skyjack electric scissor lifts from the AFI Fleet
- Ideal for smaller installations
- Can be fitted in minutes without modification to the scissor lift

| CE APPROVED WORK PLATFORMS | | | |
|----------------------------|------------------------|--------------------------|------------------------|
| Skyjack Model | Safe Working Load (kg) | Pipe Carrier Weight (kg) | Revised Model SWL (kg) |
| SJ3219 | 218 | 23 | 195 |
| SJ3226 | 227 | 23 | 204 |
| SJ4626 | 272 | 45 | 227 |
| SJ4632 | 227 | 45 | 182 |

SHEET STAND

Specifically designed for safe and controlled lifting, the AFI Sheet Stand is ideal for use in the installation of sheet materials and cladding panels, allowing secure loading, storage and manoeuvrability.

BENEFITS

- Reduces the need for manual handling
- Offers a safe and secure working environment
- Offers storage and work area for single sheets or multi-packs of cladding panels

CE APPROVED WORK PLATFORMS

| Skyjack Model | Safe Working Load (kg) | Sheet Stand Weight (kg) | Revised Model SWL (kg) |
|---------------|------------------------|-------------------------|------------------------|
| SJ8831 | 680 | 57 | 623 |
| SJ8841 | 680 | 57 | 623 |
| SJ9250 | 680 | 57 | 623 |
