

DURATION

1 Day

WHO SHOULD ATTEND

This programme is designed for Managers and Supervisors who may need to supervise an entry into a confined space.

AIM

To provide delegates with a general understanding of confined spaces, the associated legislation, approved code of practice (ACOP) and dangers associated with confined spaces.

AFI is pleased to be able to provide an extensive range of certified training courses in collaboration with Speedy Training.

Delegates should provide a passport photograph on the day of training for production of ID cards.

For training held at your own location please ensure you make available a classroom suitable for the number of delegates attending, with a 240v power supply.

COURSE CONTENT

- ◆ **A Basic Understanding of Health and Safety Legislation Relevant to Confined Spaces**
- ◆ **The Ability to Identify and Assess Confined Spaces**
- ◆ **An Understanding of Atmospheric, Physical and Biological Hazards**
- ◆ **How to Plan, Develop and Check Safe Systems of Work**
- ◆ **An Introduction to Specialised Safety Equipment**
- ◆ **How to Deal With Accidents and Emergencies**
- ◆ **How to Assess, Manage and Supervise Confined Space Entry Teams**
- ◆ **How to Develop A Permit System**

KNOWLEDGE

By the end of the course, delegates will be able to:

- ◆ **Summarise the requirements of the Confined Space Legislation and the associated ACOP**
- ◆ **Identify a confined space and its reasonable foreseeable risks**
- ◆ **Select appropriate methods of risk control**
- ◆ **Be aware of appropriate safety equipment that may be used when entering a confined space**

The training methods used in this course include classroom based tutorials including an introduction to the different types of equipment used when working in confined spaces.

A simulated entry into a confined space is not incorporated in this course, therefore if you require certification for entry procedures you may need to attend an alternative course.
