

DURATION

4 or 5 Days

WHO SHOULD ATTEND

This programme is designed for anyone with responsibility for health and safety management and associated legislation.

AIM

The aim of the course is to ensure that safety requirements are appreciated by people employed as line managers and enable them to review their own departmental systems for safety, introducing new controls or implementing changes as appropriate to make their workplace safer.

AFI is pleased to be able to provide an extensive range of certified training courses in collaboration with Speedy Training.

To be awarded the IOSH Managing Safely Certificate delegates must attend every module and successfully complete the post course assessment and project, which is valid for 3 years.

For training held at your own location please ensure you make available a classroom suitable for the number of delegates attending, with a 240v power supply.
