

DURATION

5 Days

WHO SHOULD ATTEND

This course is designed for site managers, agents and persons who are, or are about to be, responsible for planning, organising, monitoring, controlling and administering groups of staff and workforce.

AIM

This programme is designed to enable Managers to help site managers, agents and supervisors to:

- ◆ Manage health and safety on site in accordance with current legal provisions and within the context of their management or supervisory role
- ◆ Develop an understanding of responsibilities and accountability for site health, safety and welfare
- ◆ Recognise a safe site is efficient, economical and productive

AFI is pleased to be able to provide an extensive range of certified training courses in collaboration with Speedy Training.

Issue of the most highly regarded Construction Site Managers Safety certificate (valid 5 years) will be awarded to those persons who successfully complete the course including the compulsory final examination (80% pass grade).

Training grant aid is available for levy payers in accordance with the current CITB grants scheme.

For training held at your own location please ensure you make available a classroom suitable for the number of delegates attending, with a 240v power supply.
